MODEL 4000+

MULTI-DIRECTIONAL, BREAK-AWAY, POSITIVE LOCK GOAL

The 4000+ MDG (Multi-Directional Goal) shall be constructed with a three spring design. An adjustable detent spring will give the goal a positive lock in the play position, but is factory set to break-away at 180-200 lb [82-91 kg] force. The other two springs will return the goal to the play position following a breakaway action from the front or the sides.

Goal shall deflect according to the applied pressure from any position around the goal ring. Goal shall have an official sized 18" ring of 5/8" diameter steel and shall be supported by a continuous welded wrap around brace. Goal shall meet NCAA and high school requirements.

Goal shall have a tube style net connection and orange powder coated finish. Anti-whip net and hardware shall be included. Universal goal mounting plate will fit hole patterns for most 42" rectangular backboards and most fan-shaped backboards.

ACCESSORIES

BACKBOARDS

See Goal-Board Matrix specification sheet for board compatibility.
